Turn rooms faster with the
Simplest, Safest, and Most
Adaptable Curtain System

Rapid Refresh® Sereneview® and Armor™ Extended Use Privacy Curtains

Utilizes the Rapid Refresh® Patented Quick Release System

Fabric Construction

- Created with high quality, triple weave 100% polyester for a rich feel and excellent durability.
- A durable, non-leaching Antimicrobial (AEM 5700) coating and Stain Guard are added to create a fabric that can go longer between washings and aids in controlling the spread of infections.
- A durable, non-leaching Antimicrobial (AEM 5700) coating is embedded into the fabric to inhibit the growth of stain and odor-causing bacteria, mold, mildew and fungi.
- Stain Guard coating, designed especially for 100% polyester, protects the fabric from bodily fluids, betadine, blood, ink, oil, and most other substances.
- Suitable for use in showers as the fabric prevents antifungal growth.

Note: Rapid Refresh Sereneview and Armor Extended Use Privacy Curtains are also available without the non-leaching antimicrobial coating.

Fabric Designs

Sereneview is available in 10 stunning landscape designs which provide a calming and peaceful view for patients to help reduce patient stress and blood pressure. The designs coordinate with our disposable and reusable privacy curtains.

Armor is available in 11 beautiful patterns that work with any of your facility's colors and decor.
